REACH REGULATION COMPLIANCE STATEMENT

This statement confirms that Everflon™ is aware of the requirements of REACH Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006. It is our intention to comply with the requirements of this regulation as it applies to producers of Articles outside the EU. All products offered by Everflon™ are Articles, as defined in the REACH Regulation, and do not include substances that are intended to be released, in quantities totaling 1 tonne (2260 pounds) or more per year or otherwise.

SVHC

250 Substances of Very High Concern (SVHC) listed by the European Chemical Agency (ECHA), last updated 25 June 2025, are not intentionally or knowingly added to during manufacture or contained in Everflon™ products or packaging above a concentration of the 0.1% w/w reporting threshold unless otherwise stated below. We will continue to work with our suppliers to identify any SVHC contained in the materials procured for use in manufacturing Everflon™ products. Customers will be notified immediately if any SVHC use is determined.

SCIP database

SCIP database information is product specific and will be supplied at the product family level as requested. None of our materials were analyzed for content, relying on the material supplier for Certifications and/or notifications and/or available MSDS.
